

PayHub Plus Shuttle Reader

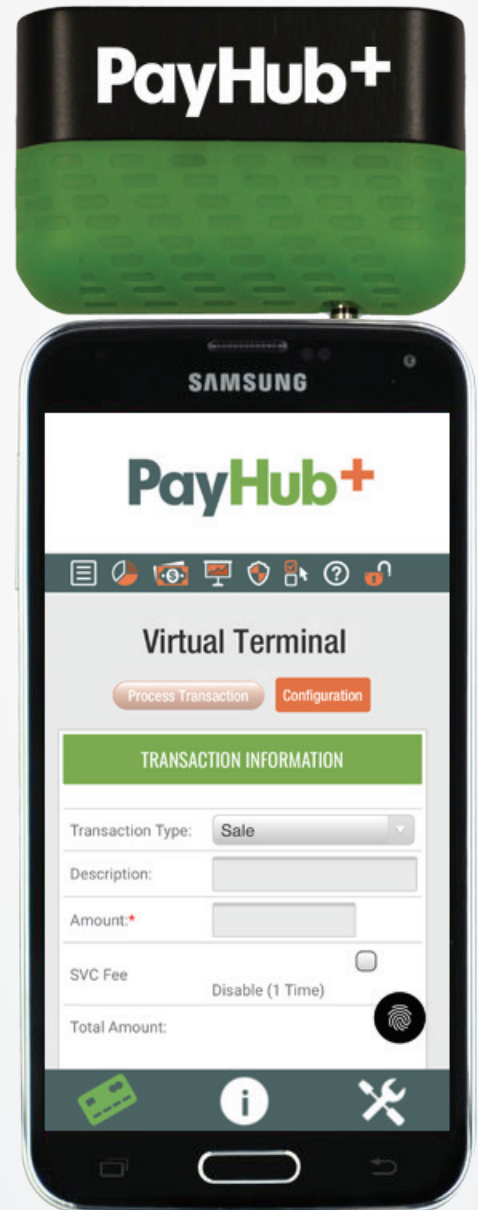

Gain Secure Mobile Swiping On Your Mobile Device

The **PayHub Plus Shuttle** is a magnetic stripe reader that reads up to two tracks of information with a single swipe in either direction. It easily communicates with mobile devices via the headphone jack and reads a variety of magnetic stripes - including credit cards, signature debit cards, gift cards, and loyalty cards. When reading card data, the secure and reliable Shuttle encrypts the information before it enters the mobile device, providing the best protection of sensitive data.

Effortless and Easy Features with Hi-Performance.

- Plugs into audio headphone jack- no cables or batteries
- Superior MagStripe reading performance
- Bidirectional card reading
- OEM Version Available
- AES / TDES Encryption
- SDK available for Apple, Android, and Blackberry platforms
